

Module: SEI 104 Data Analysis and Application
Amphi High School
Location: Portable 3

Presenters:

Carla Garcia- Amphitheater High School cgarcia@amphi.com

Flor Lopez- Nash Elementary flopez@amphi.com

Module Description:

Analyze and apply disaggregated data from the AZELLA and other assessments to differentiate instruction.

Materials required for Module

Portfolio

Book- How-To Handbook Teaching English Language Learners

Arizona's Professional Teacher Standards:

Participants will be able to demonstrate current professional knowledge sufficient to effectively design and plan instruction, implement and manage instruction, create and maintain an appropriate learning environment, and assess student learning. (S8)

Content Objectives:

Participants will be able to:

- analyze and apply disaggregated data to differentiate instruction for English Language Learners.
- interpret and use snapshots of longitudinal data from a variety of tests to track student status and progress.

Language Objective:

Participants will be able to:

- develop vocabulary as it relates to data analysis and differentiated instruction.

Items needed for Portfolio

- Syllabus for SEI 104
- Post-class assignment
- Class Handouts
- SEI 104 Certificate of Training

Assignments

- Pre-class: read Chapters 4 and 5 from "How-To Handbook: Teaching English Language Learners" and be prepared to discuss.
- Post-class: Choose one activity from "Assignment Menu"

Assignment for Non-teaching Professionals:

All participants will complete the same assignments.

Expectations for Participants:

1. To come to each module prepared, having completed the readings and required assignments on time.
2. To keep "side bar" conversations to a minimum.
3. To come to each module on time and to stay the entire time.
4. To respect the diversity of experiences and perspectives brought to the modules in order to foster a positive risk-taking environment.
5. To turn all electronic devices and cell phones to silent mode.
6. To have all outside work/reading materials put away during the modules.
7. To participate in class discussion, activities and learning events in these modules.
