

Map Testing for Parents

Day of the Test

- **Math Test Session:** 9:00 – 11:00am on Tuesday, September 8th
- **Reading Test Session:** 9:00 – 11:00am on Wednesday, September 9th
- **Extended Test Sessions:** 12:30pm – 2:30pm on both days (If needed)
- At 8:30am, your student will join their homeroom teacher's Zoom.
- During this time their teacher will prepare them to take the test, which includes confirming that your student has received a ✓ on the Device Readiness Check (check.nwea.org) and has disabled pop-ups.
- Your student will test between 9:00am and 11:00am, if they are unable to complete the test within those 2 hours, they can return after lunch at 12:30pm to complete the test.
- When your student is taking the assessment remotely, please do not assist them with finding/submitting correct answers. We want to have assessment results that accurately reflect your student's knowledge. Thank you for your assistance with this whole process as your student tests from home.

Troubleshooting

During the Device Readiness Check, my student received an X instead of a ✓.
The most likely issue is an incompatible browser, in that case, download and install the latest version of the Chrome web browser. If it is another issue, call our front office for help.

What if my student experiences an issue during the testing session?

Their homeroom teacher will refer them to the Test Administrator who will provide support via Zoom.

What if my student completes a test?

They are free to leave the session, and participate in Independent Work Time after lunch.
