

FOUNDATIONS

Tradition of Excellence

Amphitheater Public School District has a long history of excellence, going back to 1893 when the first school opened with 11 students. Today we have 21 campuses and more than 13,000 students. Our teachers are state certified and highly qualified. They participate in ongoing professional development, and many have national certification. They have excellent and well-proven strategies to enhance learning.

Amphitheater Public Schools offer a demanding and rigorous curriculum aligned with current standards. Our educators focus on skills students need in today's workplace, including creativity and innovation, critical thinking, communication and collaboration.

AdvancEd Accreditation

Amphitheater District has earned system accreditation from the AdvancEd Accreditation Commission. This means that all Amphi schools are accredited, and that Amphitheater School District is recognized across the nation as a quality school system.

AdvancEd evaluators found a culture of compassion, kindness, and support in Amphi Schools, positively impacting the District's effectiveness.
