E. Approval of Reclassified Position - Transportation Scheduler

Board Book Information: *The District recently conducted a review of the Special Education Transportation Technician position. The job description was reviewed and compared to the current duties and responsibilities of the position. To ensure accurate representation and classification, the position was retitled and reclassified to reflect the current responsibilities and functions of the position. Attached is the revised job description. Although a revised job description was needed, a salary modification was not warranted. The scope, nature and complexity of the position remained essentially the same and therefore did not require a change in compensation. Consequently, the District will not incur a monetary expense increase. The incumbent will remain in the position and will be notified accordingly of the new title and job description.*

L. Approval of School Facilities Board FY 2015 Preventative Maintenance Program Report

Board Book Information: *Attached is a copy of the FY 2015 reporting statement of the Preventive Maintenance Program which is to be submitted annually to the Governing Board for approval. The Facility Support Services team completes preventive maintenance based on four inspections per year. Preventive Maintenance tasks are scheduled annually, semi-annually and quarterly based on equipment specifications and School Facilities Board (SFB) recommendations. The SFB provides school districts with a standardized list of recommended tasks to be completed. This Recommended Task List cannot be edited. As a result, there is a difference between what is on the Recommended Task List and the Completed Task List. For example, Amphi High School has asphalt shingle roofing; however, the SFB Recommended Task List only has metal roofs listed. The assigned task for metal roofs cannot be removed from the list therefore a task for asphalt roofs must be added. As a result not all recommended roofing tasks (those for metal roofs) are completed. A site may have more completed tasks than were recommended simply because more tasks were identified and completed when the preventive maintenance crew serviced the site. Conversely, if the site is non-academic no recommended tasks are assigned by the SFB.*

M. Approval of School Facilities Board (SFB) Grant Terms and Conditions for Canyon del Oro High School HVAC Replacement (Gym)

Board Book Information: *The 5-ton heat pump that serves the coaches' office and officials' locker room failed. The compressor has developed an internal short grounding the system. The compressor is original to the unit and was installed in 1985. Compressors for this 30- year old unit are no longer manufactured and extensive retrofitting of the system would be required to install a new compressor. Due to the age of the system, a Building Renewal Grant was submitted to the School Facilities Board (SFB) requesting funding to replace the system with a new unit rather than repairing the system. The grant was approved by the SFB on October 5, 2015 in the amount of \$10,700. To accept the Building Renewal Grant, the District's Governing Board must approve and execute the attached Terms and Conditions. These Terms and Conditions apply to the distribution of funding by the SFB from the Building Renewal Grant Fund pursuant to Arizona Revised Statutes §15-2032.*

Project Information:

Canyon Del Oro High School

Project Number: 100210282-9999-007BRG

Project Scope: Replace 5-ton HVAC unit

SFB Funding: \$8,298

SFB Engineering: \$1,500

SFB Contingency: \$902

District Funding: \$0

Total SFB Funding: \$10,700
