

Online Enrollment Information

In order to be enrolled in an online course at IRHS, you will need to have gotten approval through your counselor. Your counselor will then send me a **Course Request Form** which will list what courses you need and any other pertinent information.

For MDLP:

- Go to mdlp.org/amphi and click on "**Enroll Now.**"
- In the dropdown, you will pick "**Public**" as type of previous school.
- Next, complete the registration information. A rule of thumb is that if you do not recognize or know what an acronym is like, ELL, 504, IEP then just select "No." You would know what these are if they concerned you. If it needs to be changed later, we can do that.

- The last page is an **AGREEMENT** page.
Please read the brief agreement page so you understand what you are agreeing to. Then, just type parent name and student name at the bottom.

For Edgenuity and O'Ware:

Please complete the Student Information form located on my homepage of this web site. I will be using this information to create an account for you. Please be sure you include your personal email and your parent(s) email for future contact.

Do not fill out any **COURSE** information; I will take care of that.
