

### **REACH Enrichment Activity Menu**

Here are some optional activities for you to work on over the next weeks. You can have your parents sign each box you complete and show me when we come back. If you have email, send me a note – I’d love to hear from you. [lkechely@amphi.com](mailto:lkechely@amphi.com)  
I miss you! \*\*Mrs. Kechely

Ask parents first! Take out the spices in the kitchen, clean the cupboard. Arrange the spices in alphabetical order.	Write an original fairytale. Include beginning, middle, end with a conflict and resolution. Begin with “Once upon a time”. End with “...and they lived happily ever after”	Make a puppet show with your stuffed animals. Include sound effects and a song. Make invitations to your family to watch your show.
Read a book, then write (or tell) a different ending. Draw a picture that goes with your new ending.	<i>Teach Someone</i> (brother, sister, parent, stuffed animals). Prepare and teach a lesson in reading, math or art.	Play music and make up a dance routine.
<u>Experiment:</u> Will an ice cube melt faster in 1 cup of water or in a bowl by itself?	Learn how to juggle 3 socks.	Learn to write your name in calligraphy.
Do an extra chore at home and surprise your parents. Write them a letter or poem telling them how much you love them.	<i>Creativity: Fluency</i> List as many things as you can think of that are moved around when the wind blows.	<i>Creativity: Originality</i> What does a HEXABIRD look like? Draw a picture and describe why its name is fitting.
<i>Creativity: Flexibility</i> What are 10 (or more) other uses for an umbrella?	<i>Creativity: Elaboration</i> Draw 3 wavy lines somewhere on a paper. Then add onto the lines so they are part of one larger picture. Include color and a creative title.	<b>Math Fun</b> How many feet of earthworms do baby robins eat every day? Clue: If a robin eats earthworms that are 2 inches long, it will eat 84 in a day.
<b>Math Fun</b> How far can a kangaroo jump, in feet? Clue: A kangaroo can jump 8 yards, 72 inches.	<b>Math Fun</b> How many muscles do you use to frown? Clue: You use 17 muscles to smile. It takes 26 more muscles to frown than to smile.	<b>Math Fun</b> What percentage of its life does an armadillo spend sleeping? Clue: An armadillo will sleep for 24 out of 30 days.
