

Parts of a Map Notes

1. **Title** = tells the purpose of the map
2. **Directions** = tells location of 1 point from another

Cardinal (main) = N, S, E, W
& Intermediate (middle) = NW, NE, SW, SE

3. **Scale** = measures distance & has a unique ratio (relationship between 2 #'s...for example 1" = 100 miles on a map)
4. **Key/ Legend** = tells what the symbols mean
