We invite all CDO students to get involved in extracurricular activities! Whether the activity is part of a sports program, club, a special interest program or student government, it is an opportunity to make friends, learn important social skills, develop leadership and time management skills and participate in fun events. Research indicates that students who are involved in extracurricular activities are more likely to develop life skills and achieve more success in their academics. New clubs may have formed after printing. Contact Ms. Magelli in the Admin building for updated information.
