

MICRO-CREDENTIALS

student
user guide

Why earn a micro-credential?

- Provides an opportunity to students in grades 9-12 to explore career paths further and to deepen industry and/or workforce knowledge.
- Gives you a competitive edge when applying for post-secondary opportunities.
- Shows evidence of career & college readiness, enhancing your overall student portfolio.

What are competencies?

- Within each micro-credential, you will be introduced to specific competencies. A **competency is an applicable skill or behavior that contributes to the overall focus of the micro-credential**. Each competency has its own section in the course.

Micro-credentials

Take the next step in your career development by earning subject matter micro-credentials, built in partnership with leading employers and educational institutions.

This Cybersecurity micro-credential was built in partnership with Kingsland University to exclusively offer MajorClarity users a free course teaching the foundational knowledge, skills, and abilities needed to understand the purpose and function of Cybersecurity Technology. This micro-credential will help prepare you and qualify you for further pursuit of educational opportunities within Cybersecurity, covering topics such as Cryptography, Networking, and IT Architecture.

Course Length: 3-4 Hours
Status: Not Started
Partner: Kingsland University

2

To begin, click the **Start Course** link at the bottom of the panel for the course you wish to complete.

- Each section focuses on a particular **competency**.
- Course sections typically take about 15-20 minutes, and conclude with a **Knowledge Check**, requiring you to demonstrate concept mastery by earning an 80% or higher.
- You may complete the **Knowledge Check** component more than once.

3

Micro-credential mastery is attained once all course sections have been completed and a **minimum score of 80% is earned on the micro-credential final exam, the last section.**

4

Micro-credential mastery will be reflected in both the *My Portfolio* tab and on the micro-credential panel, in the form of a red badge.
