5	Needs of Populations Served	Physical Disabilities Cognitive Disabilities Intellectual & Developmental Disabilities Behavioral Health Needs Age-related Decline in Functioning Palliative Care & Hospice Care

### Suggested Use Cases

- Students interested in the Health Sciences Career Cluster can leverage this course to further define and/or confirm their preferred career path within the cluster.
- Pair this credential with Medical Services Micro-credential for this same purpose.
- Incorporate this micro-credential into a first semester or first year of a 2-3 year CTE pathway in nursing.
- Encourage students who are considering any future careers related to patient care to take this micro-credential to distinguish themselves from the competition for internships, employment opportunities, and college & scholarship applications.
- For students who have not traditionally performed well on standardized tests, the prospect of a future industry credential assessment can be daunting; Early on in their course of study, utilize this micro-credential experience to bolster student confidence and to reinforce baseline, industry knowledge.
