

Primary Care

All children, from birth to young adulthood, are welcome at Children's Clinics under the highly trained and experienced care of our primary care physicians.

Specialty Care

Our specialty care providers are supported by a comprehensive team of professionals, including child life specialists, education specialists, medical social workers, RN care coordinators, and more.

Children's Clinics is a comprehensive medical home that offers southern Arizona's families a unique environment to meet the health care needs of their children with more than 25 medical and dental specialty clinics, primary care, behavioral health, and therapy services under one roof. Located in the Square & Compass Building on the Tucson Medical Center (TMC) campus, Children's Clinics is a nonprofit organization providing family-centered, comprehensive outpatient medical and therapy services in a comfortable and engaging atmosphere.

Make a Donation

Children's Clinics is accessible to the entire community, serving children from birth to young adulthood. In addition to general pediatrics, many of our children have complex medical conditions such as cerebral palsy, spina bifida, muscular dystrophy, cardiac conditions, cleft lip and palate, sickle cell, and metabolic disorders.
