

SERVICES CHILD LANGUAGE CENTER

Our programs are designed to help young children, 2 ½ – 5 years of age, develop speech, language, and pre-literacy skills. All screening, evaluation, and therapy sessions are performed, or supervised, by Speech-Language Pathologists who hold a Master's degree and Clinical Certification from the **American Speech-Language-Hearing Association (ASHA)**.

In addition to acting as a service center, the clinic serves as an active research and educational training center for students who are enrolled in the Speech Language Pathology training program work through the Department of Speech Language and Hearing Sciences (SLHS) at The University of Arizona.[/one_half_last]
