

Bond Projects Update • November

Current Project Updates...

\$10,775,863

of bond funds have been committed,
to date, on projects.

- Psomas Engineering is currently preparing a hydrology study at **El Hogar Alternative**. They are also developing construction drawings for storm water control so that the parking lot can be resurfaced.
- The bonds department is currently working on several projects at the **CDO High School** campus. Initial pricing estimates are being prepared for drainage repairs and bleacher updates at the football stadium, resurfacing of the tennis courts, and replacement of the covered walkways. WSM Architecture is preparing construction drawings for ADA restroom updates. The goal is to start those projects at the beginning of summer break with completion in the fall of '09.
- At **Coronado K-8**, WSM Architecture is preparing construction drawings for an expanded and updated health office to meet school capacity with the goal of construction taking place during the '09 summer break.
- D L Withers Construction has started demolition in the 400 wing of **Amphitheater High School** in preparation of constructing the new computer lab and server room.
- The Governing Board has approved the plans for the addition at **Prince Elementary School**. Construction drawings are complete and have been resubmitted to the city for a secondary plan review.
- At **La Cima Middle School**, Emc-2 Architecture is finishing up construction drawings for submittal to the county for permitting.

(Left) The bus loop at Holaway Elementary School has been expanded, resurfaced and is in use.
