

Bond Projects Update • December

Current Project Updates...

\$10,775,863

of bond funds have been committed, to date, on projects.

- Psomas Engineering has completed their site survey of the **El Hogar/Land Lab** campus and are in the final stages of preparing engineered drawings for submittal to the City of Tucson for permitting of the parking lot resurfacing project .
- At **CDO High School**, WSM Architecture has completed restroom update drawings for the MPR (multi purpose room), Fine Arts building, and new restrooms in the Auto Shop. These construction drawings are being submitted to Oro Valley for permitting and an RFB (request for bid) is being prepared for construction in the MPR and Fine Arts buildings. Also the Bonds Department is continuing to work on football stadium repairs for the drainage system and bleachers as well as replacement of the covered walkways.
- At **Coronado K-8 School**, construction drawings for an expanded and updated health office are 90% complete. Soil samples have been taken in anticipation that construction will begin during summer break.
- WSM Architecture has started drawings for the replacement of the exterior stairs for the two story classroom building at **Walker Elementary School**.
- Construction drawings are complete for the **La Cima Middle School** renovation and have been submitted to the county for permitting. CORE Construction's Guaranteed Maximum Price (GMP) for construction was presented to and approved by the Governing Board.
- D.L. Withers Construction has completed demolition and started construction for the new computer classroom as well as the new server room at **Amphi High School**.
- The formal groundbreaking ceremony for the renovation of **Prince Elementary School** was held on Monday, December 15.

You have received this communiqué because we want you to remain informed about progress as it relates to the bond projects.
